

Notice

Temporary hold on supplier prequalification as of 3 August 2026

Due to its current limited human resource capacity, OECS-PPS has suspended receiving new applications from suppliers requesting prequalification with the OECS. The moratorium will allow OECS-PPS an intervening period to process the significant number of outstanding applications. The temporary hold on prequalification is intended to ensure that backlogged applications are processed within an acceptable time frame. Thereafter, new applications will be accepted at a subsequent announced date.

Thank you for your understanding and continued cooperation.
